Collin County Tax Rate May Be Set September 12th

If Governor Coke Stevenson calls a special session of the State Legislature, he will likely call it for September 9, and if he does, the Collin County Commissioners' Court will fix the county tax rate September 12, according to County Judge J. H. Neilson, who attended a conference between the Governor and the Executive Committee of the County Judges and Commissioners Association of Texas, Saturday in the Mansion at Austin. Following an open conference, which lasted more than two hours, Judge Neilson said the Committee went into executive session. He then returned to McKinney.

Purpose of the conference was to acquaint Governor Stevenson with the desires of the County Judges and Commissioners relative to enactment of the bill providing for State aid to road districts that participate throughout the State. There are thirteen such districts in Collin County and this county had been receiving about $100,000.00 a year from the State for maintenance and improvement of highways in these thirteen districts.

The last Legislature failed to pass the bill and the special session, if called, is intended to try to pass this law, setting aside 1 cent of the State gasoline tax for the aid of the participating road districts. Judge Neilson is strongly in favor of the passage of this bill and believes other County Judges and Commissioners throughout Texas feel the same way as he does about it.

Tarvin Family Reunion Held At Finch Park

Members of the Tarvin family, well-known, pioneer and respected Collin County family, held their first reunion Sunday at Finch Park, when relatives and friends gathered from a wide area to enjoy the day. At noon a delectable meal was enjoyed, all having brought basket picnic lunches.

The family's history in Collin County dates back to the coming here of James Harvey Tarvin and his wife, Rachel McArthur Tarvin, from Campbell County, Kentucky, near Carthage. They came to this county in 1880, settling on the farm East of McKinney, in the New Hope Community, now owned by their son, C. T. Tarvin.

This early-day and pioneer couple reared a family of ten children. They were the parents of eleven children, one, a son, passing away in infancy. Another son, Jay Tarvin, died in 1923. Nine of the children are now living, six of whom attended the Sunday reunion in this city. They were: Mrs. Bertha Millican of Atoka, Oklahoma; C. T. Some came hundreds of miles, driving all night to reach here in time for the reunion. It was decided to make it an annual event, to be held in August. The occasion proved enjoyable to members of this large and honored family, many of whom had not seen each other for twenty-five years.

Mr. and Mrs. J. H. Tarvin both passed away in this county, and are buried at Wilson Chapel. He passed away at the age of 89 and Mrs. Tarvin at the age of 85.

This will be the last in a series of meetings and barbecues held by the Livestock Association this summer, the other sessions having been held out-of-doors at homes of members throughout the county. Mrs. Maggie Scott Is Honored On Her Birthday

An enjoyable birthday party was given Sunday for Mrs. Maggie E. Scott, celebrating her seventy-second birthday, which she observed August 15, at the home of Mr. and Mrs L. A. Hamilton, two and one half miles Northwest of Anna. The enjoyable event was sponsored by her children. H. W. (Walter) True of the Walnut Grove Community, and Mrs. L. A. Hamilton and by Jewell Hamilton, the latter living between Anna and Van Alstyne. Another son, Johnnie Scott of Dallas, could not be present.

Children, grandchildren and other relatives were present for the enjoyable event. Mrs. Scott, who makes her home with her son, H. W. True and wife, quite naturally, was highly pleased with the honor accorded her by her children and other relatives.

Her son, Mr. True, who was a welcome visitor at this office, tells us of an unusual incident that took place during the family reunion, when the entire group went on record, asserting that they would vote for office-seekers on the basis of their records, and not on what the various candidates said or promised. Mr. True says the resolution passed unanimously.

Nation Has War To Win, Roosevelt Tells This Nation

Practically using verbatim Abraham Lincoln's words during the Civil War, President Roosevelt declared Tuesday that the people of the United States do not realize that this country has a war to win and that tough fighting will be the only thing that will win it.

He added that this world war will continue until 1943, if it becomes necessary to fight that long to defeat the totalitarian powers. Defeat of the democracies, he said, was unthinkable. He emphasized the needs of England, Russia and China and declared that "all out" aid would be given by the United States.

This country has but one objective, said the President, and that is the complete defeat of Hitler and his Axis partners, Italy and Japan. The President did not say that the United States would get into a "shooting war," but he did say it was time for the people of the Nation to wake up and realize the seriousness of the situation.

Will Release Men From Service.

In Washington it was announced Tuesday that regardless of the new law extending he time of service of Selectees eighteen months beyond the one year originally intended, they will not be kept in service longer than a total of eighteen months from the time they are inducted into the army.

The fact that 200,000 young men will be released from service before the coming Christmas, it was thought by army officers, will build up the morale of the army considerably. At the same time the appointment of Frederick H. Osborn, New York corporation executive and social scientist, as Brigadier General in the army's morale branch, was announced.

◆ ◆ ◆

Far East Situation Serious.

The Far-East situation is becoming more serious, as indicated by latest news from Tokyo, to the effect that Japan strenuously objects to the United States' aid to Russia. It was reported that British subjects were finding it just as difficult to leave Japan as the Americans are experiencing. The Japanese Government offered no explanation of its refusal to allow 110 United States Citizens to board the liner, President Coolidge, which was to bring them home. The Japs disclaimed any intention of holding them as hostages.

Germans Make Advance.

Membership rolls of the Nazi party in Mexico, which have been held secret, were obtained by the U. S. Embassy at Mexico City Tuesday, it was stated in a news dispatch from the Mexican Capital. Possession of the rolls, it was said, would help materially in smashing any Nazi attempt at sabotage or fifth column activities in the neighbor republic to the South.

From Moscow comes the report that the Soviets again acknowledge advances by the German invaders in Southern Ukraine. The Nazis have advanced fifty more miles toward Leningrad, it was admitted. In the Northern Ukraine, however, it was said, heavy fighting continues and the Germans are being held in check on their drive toward Odessa, the important Russian base on the Black Sea.

From London it was reported that the twenty-eighth British submarine, the Cachalot, was lost Tuesday, but the crew was saved. The submarine was rammed and broken in two by an Italian torpedo boat in the Mediterranean.

In a stirring speech in the United States Senate Tuesday, Senator Harry F. Byrd, Democrat of Virginia, declared that this country has ample labor and raw material to produce more than any other nation in the world, but was not doing it. He demanded complete reorganization of the national defense production setup, saying that social gains and everything else must yield to the rearmament effort.

Collin Wheat Growers To Vote In Referendum

Collin County wheat growers will vote in a national referendum before June 10, 1942, to determine whether they want to continue marketing quotas, according to J. B. Mooney, Secretary of the Collin County AAA Committee.

The announcement, which was made several days ago by Secretary of Agriculture Claude R. Wickard, gives farmers sufficient time to plan their 1942 plantings.

According to the AAA Act, a proclamation must be made prior to May 15 of any marketing year when it appears the wheat supply will exceed a normal year's domestic consumption and exports by more than 35 percent. The referendum must be approved by two-thirds or the farmers voting before quotas are in effect for that year's crop.

"The carry-over we will have on hand July 1, 1942, will be one of the largest on record since our exports have been reduced and we are harvesting an above-normal yield this year," the AAA official explained.

Wheat quotas, in effect for the first time this year, were approved recently by 94 percent vote in Texas. Collin County wheat growers approved quotas by 91 percent favorable vote.

Since marketing quotas protect loan collateral, a government loan would not be made on the 1942 crop if quotas were voted down. Loans at 85 percent of parity are in effect on the 1941 crop because quotas were approved.

The purpose of wheat marketing quotas is to divide a limited wheat market equally among producers. Farmers planting within their allotments make adjustments at seeding time while farmers exceeding their allotments are called upon to adjust marketings.

The marketing penalty on excess wheat this year amounts to 50 percent of the basic loan rate. Since the national average loan rate is 98 cents, the penalty on excess wheat is 49 cents.

R. J. Wilson, Chairman of the Collin County AAA Committee, has been advised by the State Office that November 30, 1941, is the closing date of accepting requests for 1942 new grower wheat allotments.

Farmers who have not planted any wheat for harvest during 1939, 1940, and 1941, but desire to plant wheat for the first time in 1942, are considered new growers. The acreage which new growers will receive is taken from a county reserve which in most cases, represents approximately 3 per cent of the county allotment.

All farms receiving wheat acreage allotments for the first time this year, regardless of the size of the acreage, will be classified as non-allotment farms. Regulations also state that the larger of the wheat acreage allotment or 15 acres may be harvested without incurring deductions. Non-allotment farms will not be eligible for either conservation or parity payments, but in case marketing quotas are in effect loans may be made on that portion of the wheat in excess of the farm marketing quota.

Requests for new grower allotments should be filed in the county AAA office as soon as practicable, Mr. Wilson pointed out, since no applications may be filled after the closing date.

Collin Fellowship Meeting Christian Churches Aug. 26

Next Tuesday, August 26, the Collin County Fellowship Meeting of Christian Churches will meet with the Lucas church from 10 a. m. to 4 p. m. Lucas is one of the fine rural churches of the county and among its membership are many of the county's most substantial citizens. Rev. W. A. Welch of TCU is the Pastor of this splendid church and he, together with the membership, extend a cordial welcome to the members of the County to come with them next Tuesday. These gatherings generally enjoy an attendance of about two hundred and dinner is served complimentary by the host church.

Dr. Kenneth Bonham, Missionary of India will be on the program. It is expected that Rev. Erwin Montgomery of Longview will also speak. Reports are heard from all the churches. The meeting as its name indicates, is principally for fellowship. No business is transacted and only a free will offering is received as the need may arise. The expense of the gathering is very slight the only expense being transportation for out of county speakers and postage and telephone calls incident to the gathering.

Mrs. Dulan Scott of McKinney is the Secretary-Treasurer and Dr. Clifford S. Weaver is the President. There are twelve organized churches in the county and also meetings are held at McDonald School House.

No More Rain Is Needed By Cotton Crop

Prospects for the cotton crop in Collin County have been very promising until the intermittent rains have visited this section during the past week or ten days, according to County Agricultural Agent Jack McCullough. Right now, he said, if there is no more rain and not too much dampness caused by humidity, there will still be a good crop, but he explained that the continued wet weather has caused the infestation of the boll worm, boll weevil and cotton leaf worm to spread throughout the cotton-growing area, including Collin County.

Agent McCullough strongly recommends spraying or dusting the cotton frequently because, he said, the rains wash off the plant, getting rid of the poison, which has been sprayed or dusted, and it is necessary to do the job over again.

Mrs. J. A. Betts celebrated her sixty-fifth birthday Tuesday at her home in Weston where she has resided for more than 50 years.

She came to Weston from Kentucky with her parents, part of the trip being made by ox-wagon. She recalls that the oxen became frightened while they were being ferried across a stream and almost pushed some members of the family into the water.

Arriving in Sherman by train, the family found that Spring rains had set in and roads were extremely muddy. An uncle then living at Weston met them with horses, but the mud was so deep they had to walk much of the way since the horses could not carry them.

Mrs. Betts was twice married, but both husbands are dead. A daughter, Mrs. J. C. Cave and family, make their home with her.

McKINNEY, TEXAS, THURSDAY, AUGUST 21, 1941.

There's no county in the State where diversification can be practiced more successfully than in Collin County. In addition to growing all kinds of farm crops, one can raise fruits, berries, garden and truck produce, together with cows, hogs, chickens and other livestock. It is possible to live at home on one of Collin County's fine farms, as many farmers will attest.

National defense projects in Texas involving expenditures of nearly $500,000.00 have been certified by the Works Projects Administration, Governor Coke Stevenson has been advised. They are: Improvements to Camp Bowie military reservation in Brown County, including clearing debris, leveling, grading, sodding and landscaping; WPA funds, $45,040; funds supplied by the United States army, $19,960; workers to be supplied, 213. Improvements to Beaumont Municipal Airport, including construction of underground drainage facilities and installation of boundary, runway and obstruction lighting facilities; WPA funds, $33,265; funds supplied by the city, $16,409; workers to be supplied, 95.

Fryers are now the best sellers on most homemakers' markets in Texas, and many producers are buying baby chicks now to meet an increased demand for fryers during the early fall months. That's the report from Myrtle Murray, Extension Service specialist in home industries, who supervises the work of these markets. She says the other farm women can take this tip from those who sell on markets: Some of the producers are getting ready for Christmas sales now by preserving products for holiday sales. Among these are canned sweet pickled, preserved and dried peaches; preserved, spiced or crystallized figs; jellies and juices of all kinds; and brined cucumbers to be made into sweet and sour pickles as needed. Some women are storing fruits and vegetables in freezer lockers to sell at premium prices next winter.

EDWIN J. KIEST.

The passing on to a deserved reward in Dallas of Edwin J. Kiest, noted Dallas newspaperman, philanthropist and civic worker, brings regret, not only among members of the Fourth Estate, but to a multitude of other citizens of all walks of life.

Dr. Umphrey Lee, President of Southern Methodist University at Dallas, who paid tribute to Mr. Kiest in funeral services at the Scottish Rite Temple in Dallas, Tuesday afternoon, voiced the true sentiments of a host of friends of Mr. Kiest when he said:

"Mr. Kiest believed that in a man rested the power to do or not to do. He proved that a man can have certain rugged principles that he didn't have to give up. He knew his own business. He gave his money to help many and his benefactions were not trumpeted from the housetops. But he would rather be remembered by the great institution he built and to which he gave himself than by any other thing."

Owner of the Dallas Times Herald and Radio Station KRLD, Mr. Kiest, son of a Methodist Minister, who sold newspapers on the streets of Chicago when a boy, achieved outstanding success in his chosen field of work. He was active in Masonic circles, being a 33rd degree Mason and Vice President of the Texas Scottish Rite Crippled Children's Hospital. He served on the Texas A. & M. College Board of Directors several years, was president of the Dallas Park Board, donated Kiest Park to the city of Dallas, and otherwise distinguished himself in meritorious civic service to his city, state and nation.

This Editor had long known and admired Edwin J. Kiest. The first newspaper this newspaperman ever owned, at Wylie, was purchased from Mr. Kiest, with a down payment of $25.00. And when this newspaperman took that important step and chose for himself a helpmeet to travel with him down life's pathway, Mr. Kiest was among those present at the wedding ceremony. So, it is with a heavy heart that we chronicle his passing. We know that thousands of others will miss him in the years to come, as we realize we personally have suffered an irreparable loss in his going to a rich and deserved reward.

Filled with wisdom, with a love of hard work and a desire to aid his fellowman, he deserved the success that was his during his lifetime. Truly, a great man has fallen and one that will be missed for many years to come by those who had the good fortune to come in contact with this distinguished

YOUR HOME TOWN

COLLIN COUNTY FREE FAIR.

MAKE YOUR PLANS TO AT-tend the annual Collin County Free Fair, to be held in McKinney September 23, 24, 25, and 26. It will be worthwhile and you'll find an abundance of exhibits here to interest you.

COOLER WEATHER.

THE PAST FEW DAYS OF cooler temperatures have caused considerable favorable comment from McKinney and Collin County citizens. Whereas we have been experiencing weather of from 95 to 101 degrees, Tuesday's high was only 88 degrees. It is needless to say the cooler weather is appreciated. While the early part of the nights may be rather warm, yet the early mornings are refreshingly cool and pleasant. All of which reminds us that fall is decidedly in the air, believe it or not. Not only are the days getting shorter, as you are aware, but especially early in the morning the weather takes on the aspect of early fall days. Leaves are beginning to fall and we have already noticed some McKinneyites raking the leaves in their yards. Thus far, we haven't found anyone objecting to the cool breezes that have prevailed the past few days in this city and county.

AUGUST NORTHER.

AND, THERE MAY BE AN explanation of this cool spell, here in mid-August. Our Dad tells us that many years ago, the late Henry Wallis, pioneer and respected citizen living Northeast of McKinney, told him that we could always look for a Norther between the 15th and 20th of August. Well, his statement bears weight, in that this cool spell has come between those dates. The wind has really been whipping out of the North. And, we haven't found anyone objecting to the Norther.

SCHOOLS TO OPEN SOON.

IT WON'T BE LONG UNTIL the school bell—if, indeed, they still ring school bells—call thousands of fine young boys and girls back to the school rooms in this city and county. This is the month when teachers and pupils alike bring their vacations and other summer work to a close, and lay in a supply of school clothes, supplies, and other items necessary for a year of work. McKinney merchants and other business men throughout the county are featuring school clothes and supplies, and many of them report the students already are looking around for school necessities. Superintendent Jack R. Ryan of the McKinney Public Schools and County Superintendent J. W. Moseley and other officials are pleased with prospects for the new school year. This year will also mark an innovation in the city and county school system, in that the schools of Texas will inaugurate, for the first time, the twelve-grade system.

3,679 POUNDS OF ALUMINUM.

COLLIN COUNTY TURNED in a neat piece of patriotic work, relating to the national defense program, when they collected 3,670 pounds of aluminum, which will be used in the manufacture of bombers for the United States and British air force. The aluminum, as it was collected, was placed in a huge wire bin on the public square, where it attracted great attention, not only from McKinneyites, but from visitors in the city as well. Two big truckloads of the product left here recently, taking the aluminum to the Dal-Hi Field in Dallas, gathering point of the county-wide drive, while the Junior Chamber of Commerce, with Clyde Doyle as Chairman, was in charge of the drive in the city. All those having part in the collection are well pleased with the response of the citizenship of McKinney and Collin County in this portion of the national defense program.

FAMILY REUNIONS.

EACH YEAR MORE AND more family reunions are held at Finch Park in McKinney, an ideal place for outdoor gatherings of this kind. In addition to occasional gatherings during the week days, it is nothing unusual to find as many as a half dozen family reunions in progress there any Sunday you drive through the park. Many of these reunions are annual affairs and meet each year in this city, attracting visitors from other States. McKinney is fortunate in possessing this natural picnic spot, which attracts these visitors to the city each year. After once enjoying the natural advantages to be found there, it is not difficult to lure them back again. Finch Park is known far and near, and because it draws so many visitors here from distant points, finds its reputation spreading each year.

TOM BOMAR.

WHILE ON A RECENT VISIT to McKinney and his old home, East of this city, our good friend, Tom Bomar, came by to chat awhile and to order the Weekly Democrat-Gazette sent to him at Austin, Texas, where the family lives. Mr. Bomar was accompanied to McKinney by his son, Pat, 11 years old. The family formerly lived in McKinney and have a host of friends living in this city and county. Much of the time was spent visiting his parents, Mr. and Mrs. G. F. Bomar, pioneer and esteemed couple living a few miles East of here. His father is 84 and his Mother is 82. Friend Tom tells us that his oldest son, Thos., Jr., is in the U. S. Army, Company A, Medical Department, where he is an instructor in Pharmaceutical Chemistry at Fort Sam Houston, having enlisted November 15. He is rated as a specialist first class laboratory technician, having been promoted to Staff Sergeant August 1. Thos., Jr., is making good in the army and is a graduate of Texas University at Austin. We enjoyed chatting with Mr. Bomar and talking over old times. He holds a responsible position with the Hage Department Store in Austin.

Honor Paid To Eight Selectees Of Collin County

"Collin County has always proven itself loyal not only in supplying men to all branches of the service but in helping to finance the government, first in buying Liberty Bonds for World War No. 1 and now by buying Defense Bonds for National Defense during this crisis, and I know that you boys will do your part and make us all proud of you."

This was the gist of a stirring patriotic address delivered by Will J. Rhea, prominent McKinney business man, at the rally held in the District Courtroom Friday morning to honor the eight Selectees who left immediately afterwards for induction into the nation's peacetime army. The boys will serve two and a half years, instead of one year as was first intended, Congress having passed the Administration's bill extending the time, and the bill only awaits the signature of President Roosevelt upon his return this week-end from his cruise in the North Atlantic.

Mr. Rhea declared that McKinney and Collin County were already proud to pay honor to these young men who had answered their country's call and his remarks were received with enthusiasm by the crowd of men and women who attended the rally, some of them being parents and other relatives of the young soldiers-to-be.

Two well known ex-service men took a prominent part in the program, J. W. McKinney, who served in the 42nd, (Rainbow) Division overseas during the last war, and Paul Wilson, who served in France in the well known 36th Division. The latter gave the young Selectees an insight into army life. Dressed in the uniform he wore overseas twenty-four years ago, Mr. Wilson made a short talk, giving both the serious and humorous sides of life in the army. As the meeting opened he lay on an army cot, pretending to be asleep. Then reveille was sounded by William Dowdy, one of the talented trumpeters in the McKinney High School Band, and Mr. Wilson sleepily got off of his cot, put his army pack on his back and was ready to report for the first "mess" of the day, he said. The performance was realistic and was greatly enjoyed by everyone, especially the young Selectees, who realized they will shortly be doing the same thing in real life.

Mr. McKinney was Master of Ceremonies. The invocation was delivered by Rev. Earl J. Patton, Pastor of the First Methodist Church, who also pronounced the benediction at the close.

In the absence of County Judge H. H. Neilson, who originated the "Your Friend" Club, Mr. McKinney introduced the Selectees to their sponsors.

Because of the splendid business he is receiving and the courteous nature and ability of his employes, he gave the paid vacation and raise in salary to show his appreciation, he informed this newspaperman.

Collin- Dallas County Boundary Dispute Grows

(Dallas News)

A Dallas-Collin County boundary spat threatened to spew into an annexation-to-Dallas County movement Saturday as property owners in the southern part of Collin County conferred with County Commissioner Tom Field of Dallas over claimed failure of Collin officials to improve county roads.

Dr. J. H. Stephenson, former superintendent of Parkland Hospital, landowner in the disputed area, said he intended to ask Pat Edwards, assistant district attorney in charge of civil matters, for an opinion on proposed annexation of approximately twenty-five square miles of Collin County to Dallas County.

"We've been paying taxes but not getting roads and bridges repaired," Dr. Stephenson told Commissioner Field in a telephone conference Saturday.

The area desired annexed by Dr. Stephenson roughly extends three miles North of the present Dallas County boundary and runs from the Denton County line east to the McKinney Highway (U. S. Highway 75.)

Dr. Stephenson said landowners in the area have complained that roads leading through Collin County from Dallas County have not been improved and that roads and bridges in the area are unsafe.

Attorney Edwards is vacationing, and will not return for two weeks.

It is not likely, courthouse observers said Saturday, that annexation steps can be taken at any time in the near future.

A majority of landowners in the disputed area would have to sign a petition and present it to the Texas Legislature for action. The Legislature does not meet in regular session until 1943.

(Dallas News.)

Collin County Judge H. H. Neilson said Monday the proposed annexation by Dallas County of a strip of Southern Collin County because interested property owners say roads and bridges are unsafe came as a surprise to him.

He quoted Ralph Bedell, Collin County Commissioner in whose district the strip of land is located, as saying that the roads are in good condition.

◆ ◆ ◆

Difference in Valuations.

Judge Neilson said that Mr. Bedell meant that the roads are in as good condition as Collin County can afford.

"Of course," he added, "it must be remembered that Dallas County has a valuation of more than $300,000,000, while Collin County valuation is $21,000,000."

The Dallas County tax rate is 74c. Collin County's tax rate is 47c. In addition, South Collin has a 70c road district tax, says Judge Neilson.

The annexation of the strip to Dallas County was proposer Saturday by Dr. J. H. Stephenson, former Parkland Hospital superintendent, of Dallas, and other property owners when they asked Dallas County Commissioner Tom Field to aid them.

Act of Legislature Needed.

Field, flattered by the Collin County owners' desire to be included in his district, said he would see what he could do. He asked for a legal opinion and received it Monday from Asst. Dist. Atty. Warren Cook, who said the proposal would require an act of the Legislature.

The strip of land for which annexation was urged extends roughly three miles North of the present Dallas County boundary and runs from the Denton County line east to the McKinney Highway (United States Highway 75.)

County Judge Neilson, who has been in office only sixty days, said he had received no complaints from the landowners as to condition of the roads and that he believed them satisfactory.

Miss Rebecca Lovell has returned from a delightful visit with her brother, R. B. Lovell and family in Houston.

Young McKinney Ball Player Is Given Praise

A well-deserved tribute to a McKinney young man, now playing in the West Texas League, was given one day recently by Uncle Billy Disch, Dean of Baseball coaches and known throughout baseballdom as one of the most astute baseball men in the country. Looking over the Big Spring Bombers, while Scouting for Boston, he referred to the Big Spring team as one of the best balanced clubs he has seen in a long time.

Larry Drake, former McKinney High baseball star, and member of the Big Spring team, son of Mr. and Mrs. L. F. Drake of this city, drew this comment from the man who was head of Texas University's baseball effort from 1911 until last year:

"It's been a long time since I've seen better wrist action by a batsman than Drake has." He made the comment after watching Drake in right field. Mr. Disch said he was of the opinion that after Drake put on more weight and developed more speed, he should be capable of going up, although it might be to his advantage to shift him to first base.

The comment on the McKinney High youth who is making such a splendid record with the Big Spring Club, is pleasing to the many friends of the ball player, who are predicting that he will continue to climb in the baseball world.

Billy Lloyd Aaron, four-year-old son of Mr. and Mrs. Clint Aaron, 619 North Benge Street, was painfully but not seriously injured Monday evening when an ice box fell on him. The child was attempting to get some ice out of the box in the kitchen when the box toppled over. The bone in one of his legs was fractured. The injured member was set and he was reported resting well Tuesday, although he will be confined to his bed for a while.

TRAIN KILLS COWAN YEARY, HUNT FARMER

Cowan Yeary, 67, farmer of the Kingston community nine miles North of Greenville, was killed instantly Monday when his light sedan was struck by a Southbound M.-K.-T. passenger train within a stone's throw of his home. Yeary was en route to the home of a neighbor to get a setting of eggs when the accident occurred.

Mrs. Yeary was one of the first to reach the scene of the accident. Yeary's body was lying under the automobile's motor several yards from the rest of the wreckage which was dragged sixty-five yards.

Yeary, a native of Virginia, had been a resident of Texas thirty-six years. He had lived in the Kingston community twenty-two years and had long been one of its leading citizens.

County Board Approves 1,780 Transfer Pupils

During an all-day session Saturday, the County School Board approved the transfer of 1,730 pupils from one school to another throughout the county, it was announced Monday.

At the same session, the Board decided to approve all bus routes followed by the schools of the county operating buses. The same routes will be followed as last year, County School Superintendent J. W. Moseley said. He explained that Alla Hubbard had adde to its routes to take care of the two new buses added to that district to adequately take care of the additional pupils brought into the school when the Bilderback and Shain districts consolidated with Alla.

The Warden School, in North Collin, adjoining the Grayson County line, was the first school in the county to begin the 1941-42 term. It opened school Monday, August 18, County Superintendent Moseley announced. That school employs two teachers. The White Rock School in Northeast Collin, will open for the next term Monday, August 25, with five teachers again this year.

In connection with the opening of school for next term, Superintendent Moseley called attention to the fact that all teachers' college transcripts service records, contracts and teachers' certificates must be on file in his office by September 1 and must be available when the Deputy checks each school. Otherwise the teachers will not be placed on the payroll.

Max Perkins, Jr., who is attending Spartan School of Aeronautics in Tulsa, Okla., spent the week-end with his parents, Mr. and Mrs. M. F. Perkins.

U. S. Warcraft Will Be Flown To Middle East

An important step to speed delivery of war planes to the British forces in the Middle-East was taken Monday when President Roosevelt announced that the planes and other war equipment will be "ferried" direct to the West African coast. This is to offset any move by Hitler to move into Dakar, a French possession in Africa, which it is feared will be thrown open to the nazis under terms of the Vichy agreement to collaborate fully with Germany.

The move on the part of the United States is to prevent establishment of German air bases in French West Africa or Casablanca, Morocco, from which points it would be an easy task for Hitler's air force to reach the East coast of South America and thus invade the Western Hemisphere.

American Pressure on Japan.

Following a conference between United States Ambassador Joseph C. Grew and Vice-Admiral Teijiro Toyoda in Tokyo Monday, Ambassador Grew sternly warned Japan that American pressure will be tightened unless the Nipponese make drastic changes in their fundamental foreign policy with regard to the South Pacific.

Toyoda, however, made no pledges. No mention was made of the three power pact between Japan, Germany and Italy in which Germany is pledged to come to the aid of Japan if the latter is attacked. Neither would Toyoda offer any explanation as to Japan's intentions in sending such a large force of troops to Indo-China. Both the United States and Britain believe the next move of the Japs will be to try and establish strong air and naval bases in Thailand and both have warned Japan that this will result in more intensified pressure on that country.

From London comes the report that RAF bombers and fighting planes ranging over the Channel and Northern French ports Monday sang three German patrol boats and rained bombs on Lille and an airdrome at Brittany. These attacks were followed Monday night by raids on other German-held bases in France, the British Air Ministry claimed. Losses during the day, the British reported, were even, the RAF losing three planes and the Luftwaffe the same number.

Churchill Reaches London.

Prime Minister Winston Churchill reached London safely Monday but considerable enxiety was expressed while he was en route. It was said the Germans knew of the rendezvous of the Prime Minister with President Roosevelt and that the new 35,000-ton Tirpitz, had been scouting around the North Atlantic and had intended to attack the battleship on which the Prime Minister was a passenger. In a BBC broadcast from London it was said the life of Churchill had been jeopardized by the premature publication of information about the historic conference of the heads of the two English-speaking nations. Vessels of the British fleet are now searching for the Tirpitz, a sister ship of the Bismarck, a sis-was sunk by the British some months ago.

Nazie Advance in Russia.

On the Russian front the Soviets admitted Monday night they had abandoned Kingisepp, situated on a major railroad line 75 miles Southwest of Leningrad, Russia's second largest city. All reports from Russia claim, however, that when they evacuate a city or any important stronghold or industrial center they lay waste to everything, leaving nothing for the victorious invaders. The Red High Command further said this will continue to be their policy, even to the destruction of crops and food supplies if the nazis continue to advance.

Names Of Poisons For Dusting And Spraying Given

Instructions on how to cope with insect infestations that are damaging to the cotton crop have been issued to the cotton farmers of Collin County by County Agricultural Agent Jack McCullough. He gives the names of the poisons to use in both dusting and spraying the cotton, the proportionate quantities of each ingredient and the amount to use per acre of cotton treated for leaf worms, boll worms and boll weevils.

The remedies offered by Agent McCullough are as follows:

Arsenate of lead, (use as dust). Eight pounds arsenate of lead and 1 pound of lime. Five to seven pounds to the acre.

Arsenate of lead (use as spray.). Three pounds arsenate of lead to 50 gallons of water. Eighteen gallons to the acre.

Calcium arsenate (used as dust). Use straight, five to eight pounds to the acre.

Calcium arsenate (used as spray). Three to five pounds of Calcium Arsenate and fifty gallons of water. Eighteen gallons to the acre.

Paris green (used as dust). One pound Paris green, five pounds of lime and one pound of cheap flour. Twelve to fourteen pounds to the acre.

Paris green (used as spray.) One pound of Paris green, four pounds of lime and fifty gallons of water. Eighteen gallons to the acre.

London purple (used as dust.) One pound of London purple and six pounds of lime. Twelve to fourteen pounds to the acre. London purple (used as spray). One pound of London purple, four pounds of lime and fifty gallons of water. Eighteen gallons to the acre.

Cryolite (used as dust). Eighty-five per cent Cryolite and fifteen per cent sulphur. Seven to eight pounds to the acre.

White arsenic spray can be used at the owner's risk, said Agent McCullough, who called attention to the fact that there is danger of burning the leaves of the cotton. To use this, he added, use the following formula; One pound of sal soda (washing soda), one pound of white arsenic and four gallons of water. Boil this mixture thirty minutes and use one quart of the mixture to fifty gallons of water. Mix soda first in four gallons of water. Make paste with arsenic by adding small amount of water, then add paste to soda solution. Keep amount up to four gallons.

Congress Of U. S. Adjourns; Will Reconvene Sept. 15

With both Senate and House in recess—the House until September 15 and the Senate for an indefinite period or until the finance committee reports the national defense tax bill — most members of Congress planned to visit their districts and discuss pending legislation and questions of national and international policy with their constituents. There will be no recess for longer than three days, but a few members of the House will remain in Washington and recess for three-day periods until Sept. 15.

Most Texas members of the House plan brief visits to Texas, and many of them have departed for their homes. Others will leave Washington within the next few days.

Speaker Sam Rayburn, representative of this district, left Saturday for his home at Bonham.

Tournament Ball Games Rained Out

Because of the intermittent rains practically every afternoon or evening last week, the series of baseball games of the North Texas Tournament, scheduled to be played at Van Alstyne, were postponed on account of wet grounds, according to Bud Warden, Manager of the McKinney Millers, one of the teams in the seven-club League.

The Millers defeated the Paris Club at Paris Sunday afternoon, August 17 by a score of 5-to-2, Mr. Warden reports. He said Collin Lancaster pitched a splendid game and Andy Raulston did good wchk behind the bat.

Vic Frazier, who for several years has been with the Big Leagues, has joined the Millers and is assigned to the pitching staff, announced Manager Warden. The Millers have been on a winning streak now for several weeks and with the addition of Pitcher Frazier, the team is even stronger than it was. Manager Warden is hopeful of carrying off top honors in the Tournament. The Millers have not played a game yet in this series, the game at Paris Sunday not being counted.

Next the Van Alstyne field Monday night at 8.15 o'clock the postponed game of the Denison Dam and Van Alstyne Grays was played, this being the first time the have met in the Tournament this summer. Much interest is being manifested in this contest.

Jackie Horn has returned to his home in Evanston, Ill., after a six weeks' visit here with his grandmother, Mrs. Lula Horn, and other relatives.

SOCIETY NOTES

MISS MARY IDA RHEA BECOMES BRIDE OF ROBERT B. HEIST.

A wedding, beautiful in its simplicity, was solemnized Saturday morning at 11 o'clock in the J. P. Dowell home on South Tennessee Street when Miss Mary Ida Rhea, daughter of Mr. and Mrs. J. Ed Rhea of Corpus Christi became the birde of Robert Heist, son of Mr. and Mrs. Robert G. Heist of Nashville, Tenn.

Father W. J. Bender of Dallas read the double ring ceremony. The marriage vows were taken before an improvised altar, which was arranged in front of a long mirror. Tall palms and graceful ferns formed the background for a graceful fan shaped container of white gladioli. Entwined around the morror were garlands of maiden hair fern. Completing the bridal scene were two floor candelabra holding white tapers which were lighted by Mr. and Mrs. Homer Dowell Johnson of Dallas, cousins of the bride.

Entwined down the stair rails were garlands of maiden hair fern and at the newel post tied with a satin bow was a boquet of white gladioli and tube roses. Decorating the small antique organ were also ferns and gladioli. Mrs. Ula Saunders gave the wedding marches and Mrs. J. Ollie Smith sang "At Dawning" accompanied by Mrs. Saunders. The bridal party descended the stairs, the bride being met at the foot of the stairs by her father who gave her in marriage.

Miss Rhea wore a Rosenstein model of white pebble crepe which was made with full pleated skirt and over blouse, and a navy blue sailor collar. With her costume she wore a large navy blue felt hat, blue shoes and gloves. Her wedding bouquet was a shoulder corsage of gardenias and tube roses. Miss Sherley Scott and Miss Caroline Dowell, cousin of the bride, were the only attendants. They wore white informal frocks and bronze gold necklaces, gift of the bride. Their flowers were gardenia corsages.

Robert G. Heist attended his son as best man. After the ceremony refreshments were served in the dining room. The long polished table held at one end an arrangement of tube roses in crystal vases which were linked together with a crystal chain, entwined with maidenhair fern.

The wedding cake a confection in white, was served from the other end of the table. Punch was poured inthe sun parlor from crystal punch bowls, encircled with grape leaves and huge clusters of grapes. Miss Sherley Scott, Miss Nina Bess Astin and Miss Caroline Dowell served refreshments.

Mrs. Rhea was assisted by her sisters Mrs. Fred Burnitt who resides in the family home, Mrs. Homer Johnson of Dallas, Mrs. Avery Dowell, Mrs. Clifton Dowell and Mrs. Jim Dowell in receiving. Immediately after the ceremony Mr. and Mrs. Heist left for a short wedding trip and will probably return to McKinney for a few days' visit.

Miss Mary Ida Rhea was born and reared in McKniney, but has been living in Corpus Christi for the past eleven years. She was educated in the Hockaday School in Dallas, where she graduated and also attended Gulf Park College at Gulf Port, Miss., and Fairmount College in Washington, D. C. She was a member of the Junior League in Corpus Christi and also one of the founders of Dey Penada, an organization which each year has a week of festivities. Miss Rhea was chosen the first duchess of Dey Penada.

Mr. Heist is a graduate in law of Cumberland University in Lebanan, Tenn., and also attended the University of Tennessee, at Knoxville. He is a member of the Nashville and Davidson County Bar and Library Association, a member of Tennessee State Bar, also a member of Council Royal ArCanum, past regent of Four Square Council and Grand Councilman. He is associated with the United States Department of Agriculture with headquarters in Dallas. At the present time Mr. and Mrs. Heist will not locate permanently, but will travel.

Out-of-town guests for the wedding were Mr. and Mrs. Robert G. Heist of Nashville, Tenn; Mrs. Robert Lee Kouns, aunt of the groom, from Memphis, Tenn; Mrs. L. T. First Open Boll Of Cotton From The 1941 Crop

The first open boll of cotton from the 1941 crop in Collin County, seen by these newspapermen this year, was brought in Saturday by Mrs. W. R. Webb of Westminster. The cotton was grown on her farm in Northeast Collin County. She informed us she has only one acre in this particular patch, which was planted early, and that there are several open bolls in the field. Cotton, for the most part, is late in the county this year, due to continued Spring rains and wet weather. Whereas the first bale usually has been marketed here at this time, cotton officials are of the opinion it will be the latter part of this month or around the first of September before the first bale arrives in McKinney this year.

McKINNEY MAN PASSES STATE POLICE EXAM

Investigation of applicants for state police posts, who passed the extensive examination given in Dallas Monday, began Friday by State Patrolman, it was announced by Capt. S. J. Gilbert, of the district office, in Dallas.

Captain Gilbert said that grading of examination papers in Austin was not completed, but the office had been notified that five men from this district, including Collin County, made passing grades.

"Of course, there will be others from this District who passed," the Captain said, "but as yet we have been notified of but five."

Four of the men are residents of Dallas and the other of McKinney, he revealed.

Captain Gilbert admitted that the investigation of character, backgrounds, etc., will have an important part in the selection of the more than 100 men to be sent to Camp Mabry, Austin, training camp for patrolmen.

"Many of the men to be investigated by us will never know just when the investigation is being conducted," Captain Gilbert said.

Mrs. Columbus Seal and daughter Ann of Bryan are guests of Mr. and Mrs. Julius Purnell.

Outstanding 4-H Club Boys, Girls Visit Rotary Club

Six outstanding members of the Boys 'and Girls' 4-H Clubs of Collin County held the undivided attention of Rotarians at the weekly luncheon-meeting of the Rotary Club at the First Christian Church Friday noon when a quiz session to show what the youthful farmers and Club girls know about their work on the farm was directed by County Agent Jack McCullough and County Home Demonstration Agent Charlotte Boyce.

President Lyman D. Robinson opened the meeting and turned it over to Agent McCullough, who quizzed the 4-H Boys on such subjects as the objects of the 4-H clubs, the club motto and club pledge, how the young farrmers liked Collin Count and McKinney and whether they thought they would grow up into successful farmers and stockmen. Some of the questions even went into detail on how to properly raise, feed and care for cows, bulls, pigs, sheep and chickens and how to produce the best results in cotton, corn and other crops. The boys acquitted themselves admirably, President Robinson said.

The same was true of the Girls of the 4-H Clubs, who were questioned by Miss Boyce, after she had introduced Mrs. W. E. Rickerson, Sponsor of the Thompson 4-H Club. Misses Doris and Geneva Rickerson, her daughters, and two of the members, who had won gold stars for outstanding records in their club, answered questions on home economics that would have done credit to experienced housewives.

The four boys of the 4-H clubs who took part in answering the questions on their work were: Charles Mitchell; Weston Club; Kenneth Gray, Bloomdale Club; Julian Jeans, Prosper Club and James Harlan, Bloomdale Club. All of these youthful farmers will exhibit at the Collin County Free Fair in September, they said.

F. J. Ross, newly-appointed Boy Scout Executive for this District, embracing Collin, Rockwall, and Kaufman counties, was introduced and made a short talk, explaining that advanced Boy Scout work was very similar to that taught the 4-H Club boys.

W. Hammond Moore, Secretary of the Collin County Free Fair, called attention to the dates of their fair this year being September 23, 24, 25 and 26, and urged the business men to give the Fair their fullest cooperation, which, he said, he felt sure they would do, as they have always done.

President Robinson announced that "My Job In National Defense" will be the subject for next Friday's luncheon, to be held at the First Methodist Church, when Don O. Davis and A. M. Scott, Sr., will have charge of the program.

He came to Collin County about fifty-five years ago, making his home in Wylie, where he served as City Marshal for a number of years and then moved to McKinney. From 1911 to 1914 he served as Riding Deputy Sheriff under Sheriff George Eubanks and in 1915 he was elected Sheriff and served efficiently in that office for four years. Later he became a special agent of the M. K. & T. Railroad, at Greenville and Denison, his duties taking him all over North Texas. He had also served as a McKinney City Policeman. Altogether he had been a peace officer in Collin County for about thirty-five years.

His untimely and sudden death came as a great shock to the community. He died of a heart attack while on a downtown visit at 3.45 o'clock Friday afternoon.

RAF Bombers Hit Nazi Tanker

In a series of air attacks along the French coast and in Germany, the RAF Sunday claimed to have destroyed seven Nazi fighting planes and scored a direct hit on a German tanker off Le Touquet, France. A report from Cairo, Egypt brought the news Sunday that another RAF squadron flew over Sicily. These airmen of the Middle East Command, it was said, again bombed the Sicilian harbor at Catania, causing great damage. It is claimed they met no opposition from the Italians. From what base the British fighters made the bombing attack was not made known, but Malta is just 60 miles away and the supposition is that the RAF planes came from there. Malta was bombed four times Friday by the Italians.

Soviet Lose Two Towns In Ukraine.

The loss of two important towns in the Ukraine was acknowledged Monday by the Russian Government, but it was said the Red Army is hurling vicious counter attacks all along the front and in most cases the Germans are being checked. The German High Command claimed to have "mopped up" in the productive mining region of Krivoi Rog, West of the Dnieper River, taking 7,000 prisoners. One of the two cities taken by the invading nazis was the Soviet Naval Base of Nikolaev on the Bug River just sixty miles Northeast of Odessa. The city of 140,000 people dominates the mouth of the Bug River and was taken after a long siege by the nazis and Hungarian troops.

McKinney's Growth Is Reflected In Building Program; Survey Reveals Much New Construction During Year

Evidence of the constant, steady growth of McKinney is contained in information on building construction compiled by these publications following a city-wide survey covering a period of several weeks. A systematic tour of the entire city and the checking of all available data, revealed that many thousands of dollars have been invested in new construction, mostly modern homes and from small to medium-sized cottages for sale or rent, a few apartment houses, many remodeling jobs, all in the residential sections of the city; and several very expensive projects of remodeling and refinishing downtown business property.

Of the latter, the outstanding includes the rebuilding of the two business houses on West Louisiana Street by J. T. Couch, to repair the damage done by fire recently; the complete remodeling and modernizing of the Texas Theater on East Louisiana Street by Roy Brockman, remodeling and modernizing of the building occupied by the J. C. Penney Company on the West Side of the Square, the remodeling of the building now occupied by the Mode O'Day Ladies' Dress Shop, McKinney's new store for women and girls; the extensive remodeling of the two stores on South Tennessee Street and another on South Kentucky Street by J. P. Dowell and dozens of other smaller repair, remodeling and refinishing jobs.

All of the new construction listed was either finished since the first of this year or was started during the period and is yet uncompleted. The largest project to be completed was the annex, consisting of two wings, to the McKinney City Hospital, a municipal institution, which, with equipment, cost $100,000.00. The complete hospital plant as it now stands represents a cost of $300,000.00, including the Nurses' Home.

Infestation Of Insects In Cotton Crop Of County Is Spotted; Agent Urges Farmers To Check Fields

Following a several-day tour that took him into all sections of Collin County, to observe the cotton crop, County Agricultural Agent Jack McCullough of this city reports that the insect infestation is spotted. Some fields he found to be almost destroyed by these cotton crop pests, including the cotton flea, boll weevil, boll worm and now the leaf worm.

In spite of the insects, he says that cotton is making a desperate effort to put on a good crop.

◆ ◆ ◆

Keep Close Watch For Insects.

Discussing the situation, whereby some fields are heavily infested and others, nearby, are free of the pests, Agent McCullough urges all cotton farmers to keep a close check on their cotton for signs of infestation.

"If a farmer finds no insects in his crop, he is fortunate," said Agent McCullough. "However, his nearest neighbor's cotton crop may be heaily infested, and if it is found to be so, he should get busy at once either dusting or spraying."

Agent McCullough doesn't hide the fact that the infestation is proving a serious menace to the county's cotton crop this year. In the twelve years he has been the Collin County Agent, he says the insects appear to be worse this year. One effect of the work of the insects is that they are causing a tremendout shedding of squares and small bolls, and, in his tour of the county, the County Farm Agent found few grown bolls. Even though the crop is three or four weeks late, the crop should be heavily loaded with grown bolls at this time, he says.

Agent McCullough says that, in addition to spraying and dusting the crop, he is hopeful of continued dry, hot weather, which, after all, is the most effective way to fight these crop pests.

◆ ◆ ◆

Yield Is Problematical.

Should this type of weather prevail, it is possible that many fields in the county will produce from a half to a bale to the acre.

He points out that the secret in the fight against these insects is for each farmer to keep a close watch over his own crop and, if he finds the insects prevalent, to dust or spray.

The different ages of the cotton this year also make for an insect infestation. With young cotton coming on during the season, the insects do their most effective work on the young plant. Farmers in the county must practice vigilance, since the leaf worm can have five or six crops in one season.

Cotton is continuing to put on fruit, but is not holding it, due to the ravages of the pests.

Reason for the heavy infestation this year is the wet, rainy Spring season and mild winter.

◆ ◆ ◆

Acreage Less This Year.

As to the yield this year, Agent McCullough hesitates to make a guess. Last year, Collin County produced approximately 70,000 bales, but few if any cotton men forecast this year's yield to be anything like that high. In fact, many cotton men are predicting a crop of from 50,000 to 55,000 bales. This is based on the acreage. The AAA has allowed the county from 130,000 to 155,000 acres. Of that number, it is possible that 10,000 acres or more have been kept out of production, being located in bottom lands and due to the wet season.

Agent McCullough points out that whereas in the Valley farmers make it a practice to spray and dust their crop each year, having regular spraying and dusting machines for that purpose, Collin County farmers are not equipped to carry on such an effectie war on the insects. Most of the farmers in this county are using home-made spraying and dusting devices, with some of them not getting enough of the poison mixture on the cotton plant to prove effective in the fight on the insects.

Those who are using barrels, and nozzles with which to spray their plants, should have no more than three or four nozzles to the barrel, he says. It would be a splendid idea for several farmers in any community to pool their interests and buy a real spray, which would effectively serve them all.

Many Schools Of County Contract For 1941-42 Term

Popularity of the move by which smaller schools of the county may contract, for a period of a year, with larger, affiliated schools, is shown by the large number that are contracting with others for the 1941-42 term, says County Superintendent J. W. Moseley.

Approximately twenty-five Collin County Schools have contracted with larger institutions of learning that are affiliated, thus providing the students all the advantages of the larger schools and permitting the smaller ones to keep their home trustees, school houses, State Aid, and preventing their district from being done away with. This permits the malso to keep a 50-cent tax rate. Their teachers are paid through State Aid, the County Superintendent points out.

In this way, Superintendent Moseley says each pupil gets the advantage of a nine-months term, with transportation and tuition free. Teachers of the district thus contracted go with the pupil, to teach in the larger school. No instructor teaches more than two divisions, or classes. Each period is from forty-five minutes to one hour.

Superintendent Moseley points out that, in this manner, the schools maintain their individuality and get the benefit of the affiliated systems. The great benefits thus accruing to the pupil and the teacher are unlimited. Difference between contracting of one district with another, and consolidation, says Superintendent Moseley, is that contracting is a union, entered into by trustees for the period of one year, while consolidation means permanent union of one district with another.

"Anyone who doesn't have the opportunity of affiliation school is an underprilleged child and an underprivileged teacher," Superintendent Moseley says.

Schools that have contracted for the 1941-42 year, with the affiliated school mentioned first and those contracted for the one year, are:

Another Selective Service Call For Collin Youths

Call No. 23, under the Selective Service Act, has been received by the two local Draft Boards, ordering eleven men from Collin County to report for induction into the army September 29.

Board No. 1, of which T. B. Sisco is Chief Clerk, was asked to send six men and Board No. 2, of which Ula Saunders is Chief Clerk, was asked for five men.

Jimmie Geigas Post of the American Legion will arrange for an appropriate patriotic rally on the morning of September 29 to show the young men that McKinney and Collin County are proud of them for answering the country's call to arms, announced Roy L. Brockman, newly elected Post Commander. The meeting, like all previous ones of the kind, will be held in the District Court room.

Since the first call was received in Collin County last November a total of 213 men have been sent by the two Boards in McKinney, of which 122 were sent by Board No. 1 and 91 by Board No. 2. Many times this number, however, have enlisted in the several branches of the service, including the Army, Navy, Marines, National Guard and Flying Corps. It is estimated that close to a thousand young men have entered the service from Collin County.

This is a very large percentage of the population, and in point of man-power in the United States Defense forces Collin County is one of the foremost if not the first county in Texas.

Senator Isbell Comes Out For Special Session

Senator Claud Isbell of Rockwall, in Austin Wednesday came out unreservedly for a special session immediately to make an $8,500,000 appropriation to pay interest and principal on primary road bonds already assumed.

Senator Isbell voted to send the $2,000,000 surplus to the counties, but said Wednesday this was no time to fuss about its disposition when most of the Counties of Texas are anxiously awaiting early legislative action to avoid raising taxes to pay the bond indebtedness. He said the surplus could be disposed of in a separate measure or later, as the members saw fit, but that the big bill should be expedited to a quick passtage.

Glazener, Secretary-Treasurer of the McKinney Production Credit Association.

The Finney Bakery, makers of Aunt Betty Bread, furnished the public address system and music was furnished by a stringed orchestra.

Condition of the Collin County cotton crop was discussed at length by President Jones and others and it was agreed the county's production would be good if this warm dry weather continued for a few weeks. The trouble and loss to cotton farmers caused by insect infestation due to continued rains this season were forgotten Tuesday night and everyone had an enjoyable evening. Secretary O. W. Davidson was present to take down the record of the meeting and outing.
